Mortal kombat 2021 release date hbo max time.

Warner Bros. R-rated Mortal Kombat movie reboot will soon be back on HBO Max. The martial arts fantasy action/adventure, based on the video game franchise of the same name, returns to the service on Sept. 9. George Miller's Oscar-winning post-apocalyptic 2015 movie Mad Max: Fury Road also begins streaming on the platform that day, with James Wan's latest horror-thriller, Malignant, premiering day and date in theaters and on HBO Max one day later on Sept. 10. Mortal Kombat received the same hybrid release as Malignant earlier this year, debuting in U.S. theaters and streaming for a month on HBO Max on April 23. Warner Bros. has used this strategy for all of its films going back to Wonder Woman 1984 in December 2020 and will continue to do so with its remaining movies scheduled for 2021, including Dune and The Matrix: Resurrections. After that, however, the studio plans to resume debuting its films as theatrical exclusives before they hit the home market, starting in 2022. CBR's Cass Clarke reviewed Mortal Kombat and praised the movie for "honoring the video game series' brutal action and eye-popping fatalities" while also doing a better job of "balancing the screentime between its many leads" than previous live-action adaptations of the Mortal Kombat video games. That said, they noted the film "feels like a well-thought-out fake-out" and criticized it for only offering viewers "a glimpse of the mythsos and lore that is begging to be molded." Overall, Mortal Kombat got a mixed reception from critics and holds a 55 percent "Rotten" score on Rotten Tomatoes, with an average rating of 5.4/10 after 284 reviews. The lukewarm critical response didn't do much to turn people away from the film, which grossed \$83.6 million against a \$55 million budget at a time when the global box office was in the early stages of recovery post-lockdowns. That said, its real success was on HBO Max, where it racked up a reported 5.5 million views, putting it ahead of the viewership for the rest of Warner Bros.' 2021 slate so far, including The Suicide Squad. As for the future, Warner Bros. has yet to announce whether it plans to continue Mortal Kombat with a sequel and/or spinoff. In the meantime, the film will remain available for streaming on HBO Max upon its return for the foreseeable future.

It's been an up-and-down journey for Warner Bros. and HBO Max in recent months. After shocking the industry by announcing day-and-date theatrical and streaming releases for its entire 2021 film lineup, Warner Bros.' divisive strategy has been met with varying levels of success. Wonder Woman 1984 bombed at the box office, but lit up the streaming service. Denzel Washington's The Little Things and Oscar nominee Judas and the Black Messiah produced modest footprints. Tom & Jerry performed surprisingly well in ticket sales and on streaming. And now Godzilla vs. Kong has put an exclamation point on both mediums. So what about Mortal Kombat? The reboot of the 1997 video game adaptation franchise is expected to carry forth the momentum that began with GvK when it arrives in movie theaters Friday, April 23. But for those of you who are not yet comfortable returning to movie theaters, the film will be made available domestically on HBO Max beginning 12:00am PT / 3:00am ET on the day of its theatrical release. To watch the new blockbuster, you must have an HBO Max subscription, which'll run you \$14.99 per month if you are not eligible to convert an existing HBO subscription at no extra charge. In this Mortal Kombat, MMA fighter Cole Young, accustomed to taking a beating for money, is unaware of his heritage—or why Outworld's Emperor Shang Tsung has sent his best warrior, Sub-Zero, an otherworldly cyborgman, to hunt Cole down. Fearing for his family's safety, Cole goes in search of Sonya Blade at the direction of Jax, a Special Forces Major who bears the same strange dragon marking Cole was born with. Soon, he finds himself at the temple of Lord Raiden, an Elder God and the protector of Earthrealm, who grants sanctuary to those who bear the mark. Here, Cole trains with experienced warriors Liu Kang, Kung Lao and rogue mercenary Kano, as he prepares to stand with Earth's greatest champions against the enemies of Outworld in a high stakes battle for the universe. But will Cole be pushed hard enough to unlock his arcania—the immense power from within his soul—in time to save not only his family, but to stop Outworld once and for all? The film stars Lewis Tan, Joe Taslim, Hiroyuki Sanada, Jessica McNamee, Mehcad Brooks, Ludi Lin, Max Huang, Josh Lawson, Tadanobu Asano, Sisi Stringer, and Chin Han. Mortal Kombat is coming back to HBO Max, and will be streaming totally free once again. The film premieres in theaters and on the streamer simultaneously earlier this year, in line with Warner Bros.' 2021 release strategy. It was only available free for a month, though, and if you've been in the mood to re-experience the film in all its gore and glory, the good news is it's back on HBO Max this September 9. The Mortal Kombat movie follows a brand new protagonist, Cole Young (Lewis Tan), an onetime MMA champion now fighting for cash. He was born with a mysterious dragon mark, and it turns out this actually means he's a champion of Earthrealm — and he's going to have to duke it out with enemies from Netherrealm in an epic tournament called, you guessed it, Mortal Kombat. Familiar faces from the games like Sub-Zero, Scorpion, and Sonya Blade appear in the movie.While the film debuted to mixed reviews, it was still a hit, remaining HBO Max's most watched at-home debut, according to Samba TV numbers measured across the first 17 days streaming (H/T Deadline (opens in new tab)). That means it's outperformed the likes of The Suicide Squad and Conjuring: The Devil Made Me Do It, though Deadline indicates insiders say Godzilla vs. Kong is actually the most watched day-and-date release. There's no official word on a Mortal Kombat sequel just yet, though director Simon McQuoid seems open to the possibility. "If the fans want another one, that's not for us to decide; that's for the fans to decide." We've got our own ideas on what we want from a potential Mortal Kombat sequel...While you wait for Mortal Kombat to return to HBO Max free this September 9, check out our guide to the best Netflix movies to fill out your watchlist.

Mortal Kombat is a 2021 martial arts fantasy film based on the video game franchise of the same name and a reboot of the Mortal Kombat film series.[4] The film stars Lewis Tan, Jessica McNamee, Josh Lawson, Tadanobu Asano, Mehcad Brooks, Ludi Lin, Chin Han, Max Huang, Joe Taslim, and Hiroyuki Sanada. It is directed by Simon McQuoid in his feature directorial debut, from a screenplay by Greg Russo and Dave Callahan and a story by Russo and Oren Uziel.[5] The film follows Cole Young, a washed-up mixed martial arts fighter who is unaware of his hidden lineage or why the assassin Sub-Zero is hunting him down. Concerned for the safety of his family, he seeks out a clique of fighters that were chosen to defend Earthrealm against Outworld. Following the critical and commercial failure of the 1997 film Mortal Kombat: Annihilation, a third Mortal Kombat film languished in development hell for a period of nearly two decades. In late 2010, Warner Bros. Pictures and New Line Cinema began developing a new film, with Kevin Tancharoen serving as director from a script written by Uziel in the wake of their Mortal Kombat: Rebirth short film. James Wan was announced as a producer in August 2015 and McQuoid was hired as director in November 2016. Production took place at Adelaide Studios in Adelaide and at other locations in South Australia.[6] Principal photography occurred from September to December 2019. Mortal Kombat was released internationally on April 8, 2021, then in the United States on April 23, simultaneously in theaters in Dolby Cinema, IMAX and 4DX and on the HBO Max streaming service. The film received mixed reviews from critics and grossed \$84 million worldwide against a \$55 million budget. It became HBO Max's most-successful film launch to date. A sequel is in development, with Jeremy Slater set to write the screenplay and McQuoid returning as director.[7][8]
Plot
In 17th-century Japan, Liu Kuei assassins led by Bi-Han kill the warriors of the rival Shirai Ryu ninja clan led by Hanzo Hasashi, including Hanzo's wife and son. In a rage, Hanzo kills the attackers, and Bi-Han stabs him with his own kunai. A dying Hanzo tells Bi-Han to remember his face and dies, resulting in his soul being condemned to the Netherrealm. Raiden, god of thunder, arrives and takes Hanzo's surviving infant, whom Bi-Han did not notice, to safety. In the present, the realm of Outworld has engulfed Earthrealm in nine of ten tournaments known as "Mortal Kombat"; if Earthrealm loses the tenth tournament, the rules state it will be conquered by Outworld. However, an ancient prophecy states that the "blood of Hanzo Hasashi" will unite a new generation of Earthrealm's champions to prevent Outworld's victory. Aware of this, soul-eating sorcerer Shang Tsung, who has overseen the last nine victories, sends his warriors to kill Earthrealm's champions, identified by a dragon mark, before the next tournament begins. One such champion, a former professional MMA fighter named Cole Young, is attacked alongside his family by Bi-Han, who now calls himself Sub-Zero. However, Special Forces Major Jackson "Jax" Briggs rescues the Youngs, directing them to find his partner, Sonya Blade. Jax stays to battle Sub-Zero but loses his arms in the process. Cole tracks Sonya to her hideout, where she is interrogating a captive Australian mercenary named Kano. She reveals that she and Jax have been investigating Mortal Kombat's existence and that the dragon mark can be transferred to anyone who kills the original bearer. They are attacked by Shang Tsung's assassin, Syzoth, but Kano kills him with Cole and Sonya's help. They travel to Raiden's temple and meet current Earthrealm champions Liu Kang and Kung Lao before being brought to Raiden, who is critical of the newcomers. They are joined by Jax, whom Raiden rescued and fitted with a set of mechanical arms. Shang Tsung attempts to attack the temple, but is stopped when Raiden sends him off into intrusion. While Sonya helps Jax recover, Cole and Kano train with Kang and Lao to unlock their "Arcana", a special power unique to all dragon mark bearers. During an argument, Kano awakens his arcana, the ability to shoot a laser out of his right eye. Cole is unable to awaken his, despite his persistence. Disappointed with Cole, Raiden sends him back to his family, while revealing that he is a descendant of Hasashi. Shang Tsung gathers his warriors, including Kano's former ally, Kabal, to attack the temple. Kabal convinces Bi-Han to drop the shield. During the fray, Jax awakens his arcana, granting him superhuman strength and upgraded arms. Concurrently, the Youngs are attacked by Goro. Cole rouses his arcana, giving him a suit of armor and a set of tonfas. He kills Goro and helps repel the attack on the temple. Shang Tsung and Sub-Zero are infuriated when Raiden discloses Cole's bloodline before he teleports most of the Earthrealm fighters to the Void, a safe place between realms. Lao, however, saves Cole from Sub-Zero and has his soul taken by Shang Tsung. Cole proposes a plan to force Outworld's champions into a single combat with those from the Earthrealm before neutralizing Sub-Zero together, forcing the tournament that Shang Tsung tried to prevent. Agreeing with the plan, Raiden gives Cole Hanzo's kunai, which has Hanzo's blood on it, telling him that using it would get Hanzo's spirit to fight alongside him. Raiden transports Cole and his allies to their targets. While defeating Outworld's champions, including Kabal, whom Liu Kang defeats to avenge Kung Lao's death, Sonya kills Kano and acquires his dragon mark, while also getting the ability to fire purple energy blasts as her own arcana, she also uses it to kill Mileena. Sub-Zero abducts Cole's family to lure him into a one-on-one fight. Overpowered by Sub-Zero, Cole uses the kunai and drains Hanzo's blood left on it, releasing Hanzo as the vengeful specter, Scorpion. Recognizing Cole as his descendant, Scorpion begins his feud with Sub-Zero and free his family before immolating Sub-Zero with hellfire. Thinking Cole for freeing him and requesting that he take care of the Hasashi bloodline, Scorpion departs as Raiden, the other champions, and Shang Tsung arrive. Shang Tsung vows that, next time, he will bring armies instead of individual fighters as he sends his champions' corpses back to Outworld before Raiden banishes him. Raiden declares his intention to train new warriors in preparation for the next tournament and assigns his current champions to recruit them. Cole then departs to Los Angeles in search of Hollywood for martial arts movie star Johnny Cage.[9]

Bennett Walsh and director Simon McQuoid. In 1997, Robin Shou's original Mortal Kombat contract was a three-picture deal.[16] and Threshold Entertainment's production on a second sequel was initially scheduled to commence shortly after the release of Annihilation, but it was shelved due to Annihilation's poor reception and disappointing box-office performance. Attempts to produce a third film since then have remained stuck in development hell with numerous script rewrites and storyline, cast, and crew changes. A November 2001 poll on the official Mortal Kombat website hosted by Threshold asked fans which characters they believed would die in the third movie.[17] The 2005 destruction of New Orleans by Hurricane Katrina greatly affected one of the film's planned shooting locations.[18] In June 2009, a bankruptcy court lawsuit saw Lawrence Kasanoff suing Midway Games while mentioning that a third film was in the works. Warner Bros. Pictures (which became the parent of New Line Cinema in 2008, after over a decade of both operating as separate divisions of Time Warner) ended up purchasing most of Midway's assets, including Mortal Kombat.[19] In 2010, director Kevin Tancharoen released an eight-minute short film titled Mortal Kombat: Rebirth,[20] made as a pitch to Warner Bros. Pictures of a reboot of the Mortal Kombat film franchise.[21] In September 2011, New Line Cinema and Warner Bros. announced that Tancharoen was hired to direct a new feature-length film from a screenplay by Mortal Kombat: Rebirth writer Oren Uziel,[22] with the intention of aiming for an R rating.[23] Shooting was expected to begin in March 2012 with a budget projected at between \$40–50 million[24] and a release date of 2013.[25][26] However, the project was ultimately delayed due to budget constraints, and Tancharoen began working on the second season of the web series Mortal Kombat: Legacy until problems with the film had been sorted out, but he quit the film production in October 2013.[27] James Wan signed on as the film's producer in August 2015.[28] Simon McQuoid was hired as director in November 2016, marking his feature directorial debut, with Greg Russo writing the script.[29][30] McQuoid had turned down the offer initially, but ultimately signed on after reading Russo's script.[31] Russo tweeted in February 2019 that the film's script was complete.[30] In May 2019, it was announced that the film had entered pre-production and would be shot in South Australia,[32] with a release date of March 5, 2021.[33] Russo tweeted in July 2019 that the film would indeed have an R rating and that the games' Fatalities would "finally be on the big screen".[34] In April 2021, McQuoid revealed that the film came "quite close to the line" of getting an NC-17 rating by the Motion Picture Association, saying in full, "What we had to be a bit careful of was...you can get to NC-17 pretty tricky. It's different in a video game when it's not real human beings. When you move this across to reality, a different set of things start to happen in your mind, and you get rated slightly differently. So there were certain things that are in the game that would mean the film would be unreleasable. And none of us wanted that. ... So we were balancing that stuff all the time. And there's some stuff that you will see that really gets quite close to the line because we didn't want people to go, 'Meh. Seemed kind of lame.'"[35] Ultimately, after some edits, the film received its intended R rating. Casting Joe Taslim was the first actor cast for the production in July 2019, as Bi-Han, the first Sub-Zero.[36][37] In August, Mehcad Brooks, Tadanobu Asano, Sisi Stringer, and Ludi Lin were cast in the roles of Jax Briggs, Raiden, Mileena, and Liu Kang respectively.[38] Later that month, Josh Lawson, Jessica McNamee, Chin Han and Hiroyuki Sanada were cast as Kano, Sonya Blade, Shang Tsung and Scorpion respectively, with Lewis Tan in the role of Cole Young, a new character created for the film.[39][40] On September 16, 2019, it was announced that Max Huang had been cast as Kung Lao.[14] Studiowoman Elissa Cadwell was announced as having been cast as Nitara on November 11, 2019.[41] However, in the film she is actually played by Mel Janson. Mattilda Kimber was cast as Emily on December 4, 2019.[42] Filming Production took place at Adelaide Studios and other locations in South Australia.[43]
Reception
The film received mixed reviews from critics, with an average score of 5.4/10, based on 292 reviews. The site's critics consensus reads, "Largely for fans of the source material but far from fatal(ly) flawed, Mortal Kombat revives the franchise in appropriately violent fashion." [44] In Australia, and New Zealand, the film was released on Blu-ray in January 2022 despite its HBO Max lack of availability outside of North America.[63] In late March 2021, the film was delayed one week to July 23.[58][63] The film was released in Japan on June 18, 2021, despite not having a theatrical release officially in the country due to CERO gaming rules concerning excessive gore.[64] Home media Mortal Kombat was released on Digital HD on June 11, 2021 and on DVD, Blu-ray and Ultra HD Blu-ray by Warner Bros. Home Entertainment on July 13, 2021.[65] Reception Audience viewership Following its U.S. release, Samba TV reported that 3.8 million households watched at least the first five minutes over its first three days.[66] It was watched in 4.3 million households during its first week[67] and 5.5 million households over the first 17 days, a record for an HBO Max title.[68] By the end of its first month, the film had been streamed in over 5.6 million U.S. households. [69] In January 2022, tech firm Akami reported that Mortal Kombat was the fifth most pirated film of 2021.[70]
Box office
Mortal Kombat grossed \$42.3 million in the United States and Canada, and \$42.1 million in other territories, for a worldwide total of \$84.4 million.[3][2] Release alongside Demon Slayer: Kimetsu no Yaiba the Movie: Mugen Train on April 23, 2021. Mortal Kombat was originally projected to gross \$10–12 million in its domestic opening weekend, the film made \$9 million from 3,073 theaters on its first day of release, increasing estimates to \$19 million.[1] It went on to debut to \$23.3 million, topping the box office.[71][72] In its sophomore weekend the film dropped 73% to \$6.2 million, finishing second behind Demon Slayer: Kimetsu no Yaiba the Movie: Mugen Train (\$6.4 million).[73] and \$2.4 million in its third weekend.[74] In its opening international weekend, the film made \$10.7 million from 17 countries, with the largest market being Russia (\$6.1 million).[75] In its second weekend the film made \$5.7 million from 28 countries.[76] Critical response The review aggregator website Rotten Tomatoes reported an approval rating of 54%, with an average score of 5.4/10, based on 292 reviews. The site's critics consensus reads, "Largely for fans of the source material but far from fatal(ly) flawed, Mortal Kombat revives the franchise in appropriately violent fashion." [77] Metacritic assigned the film a weighted average score of 44 out of 100, based on 43 critics, including "mixed or average reviews".[78] Audiences polled by CinemaScore gave the film an average grade of "B+" on an A+ to F scale, while those at PostTrak gave it a 92% positive score, with 78% saying they would definitely recommend it.[71] Alonso Duralde of the TheWrap wrote: "Viewers interested in martial-arts action are bound to find the combat-with-a-C-to be lackluster in that way that hand-to-hand fighting tends to be when it gets drowned out by digital effects. More likely to have fun with this latest Mortal Kombat are Sam Raimi enthusiasts who can appreciate the comedy in over-the-top geysers of fake blood, which the film unleashes with increasing regularity as the fights get more serious...[79] The Hollywood Reporter's John DeFore said the film was "not exactly a knockout" and wrote: "A B-movie that would benefit immensely from some wit in the script and charisma in the cast, it's not as aggressively hacky as P.W.S.'s oeuvre, but it runs into problems he didn't face in 1995: Namely, the bar has been raised quite a bit for movies in which teams of superpowered young people have fights to save the universe." [80] Corey Coleman and Martin Thomas of Double Toasted commented that the cast lacked any relatability and furthermore found the character of Cole Young to be a weak and uninteresting protagonist.[81] James Marsh, of the South China Morning Post, gave a positive review, saying, "Director Simon McQuoid understands and honours the film's video game origins, including memorable lines of dialogue and signature fight moves throughout" [82] Ben Kenigsberg of The New York Times wrote, "The latest screen adaptation of the video game still shows that trying to construct a coherent plot around these characters is a fatal trap" [83] Brian Lowry of CNN gave Mortal Kombat a negative review, writing: "For those on the fence, though, 'Mortal Kombat' is hardly worth starting, much less finishing" [84] Matt Goldberg of Collider wrote, "Simon McQuoid's new adaptation is a mostly joyless slog that can't even deliver exhilarating fights" [85] Benjamin Lee at The Guardian rated the film 2/5, stating "A slick and dated new attempt to transport the classic fighting game to the big screen is a late-night drunk Twitch chat host" [86] Sequel Regarding the continuation of the film as a series, the film's producer Todd Garner revealed to Collider that there is a possibility of a Johnny Cage-centric standalone film.[87] Taslim has revealed that he signed on for four sequels if the reboot is a success.[88] Director Simon McQuoid stated that he is open for returning to direct a sequel if the story for it is good.[89] Co-writer Greg Russo told Collider that he sees the reboot as a trilogy with the first film set before the tournament, the second film set during the tournament and the third film set post-tournament.[90] In an interview after the film's release, McQuoid said that the character Johnny Cage was not introduced in the film because Johnny Cage was a "giant personality" and would throw the film out of balance. He revealed that potential sequels could explore the material for characters like Cage and Kitana. He also expressed that he would like to include more female characters.[91] During an interview, Jessica McNamee has expressed interest in exploring her relationship with Johnny and Cassie Cage in potential sequels.[92] Professional wrestler The Miz has openly expressed interest in the role of Johnny Cage and has even received the support of Mortal Kombat co-creator Ed Boon and Mortal Kombat Legends voice actor Joel McHale.[93]
Martial artist actor Scott Adkins also showed interest in the role of Cage while interviewing Lewis Tan with the latter agreeing.[94] On September 14, 2021, Variety reported that Warner Bros. is looking to develop other installments in its Mortal Kombat universe.[95] On January 26, 2022, Warner Bros. had officially greenlit a sequel, with Jeremy Slater set to pen the screenplay.[7] Slater told ComicBook.com that Cage is in the sequel, but is unsure how much he'll be in the movie.[96] In May 2022 it was revealed by Deadline that McQuoid won't be returning to direct the sequel due to working on his second feature film Omega, but information in July 2022 stated that McQuoid will return to direct the sequel.[97][98]
